

EXOSKELETONS

Long-term support for better quality of life and job satisfaction

The exoskeleton for the back provides support to the lower back area. It helps maintain ergonomic posture while standing and lifting. With the use of appropriate exoskeletons, you can create workplaces that are more ergonomic and maintain the well-being of your employees in the long run. For you as an employer, this means: Reduced work absences, increased productivity and a stable work environment.

Soft exoskeleton for the back **For lower back relief**

- Supports upright posture while standing
- Helps maintain ergonomic posture while lifting
- Versatile due to its discreet design
- Easy to wear - in just a few seconds
