

# EXOSKELETONS

**Long-term support for better quality of life and job satisfaction**

The exoskeleton for the knee protects your knee during activities that require kneeling while working on flat as well as uneven surfaces. The ergonomic shape helps distribute the pressure evenly and provides significant relief to the kneecap. Three layers of foam ensure extra soft inner surface and a sturdy outer surface.

The breathable 3D mesh regulates temperature and ensures optimum wearing comfort for months.

## **Soft exoskeleton for the knee – one-size**
